Attn: Chief, Media Bureau

Dear Sirs,

It has come to my attention that new Regulations are being proposed at the FCC right now that would greatly hinder all the Christian Radio stations by imposing stringent regulations.

I am an 83-year old senior citizen, living alone and in frail health, I keep about three (3) radios tuned to a Christian radio station day and night and it is a bright spot in my life. Without this type of program, I fear my health will decline and there are so many such people in my situation.

Some Christian stations I have heard are all beautifully done. I prefer radio to TV.

Please consider the welfare of elderly folks like I am and help save Christian Radio.

Sincerely,

Ruth P. Dalton

Dear FCC:

I appeal to you to please do not modify BBN format in any way. This station has and is blessing many people throughout North Carolina. BBN is truly a God-believing and Bible-believing ministry. There are so few ministries that do not beg or appeal for money, or sell products for profit. I partition and appeal to you to do what is morally right in an immoral society. Do not do anything that would affect such a wide variety of God-loving and God-fearing people.

My address is 8723 Meadowmont View Drive, Charlotte, NC 28269. My number is (704) 912-2434. You can contact me with any questions and comments.

Thank you,

Shirley Davis

To Whom it May Concern:

I am writing to let you know that we do not want anything to change on the Christian Radio Stations. I work for a waste management company and it is christianed owned. I am blessed to have a job that I love. They are out in trucks all day long and we love to listen to the music you provide. So please do not change a thing-

Thank you for all you do and keep on doing it!!!

Thanks Again!!

In the Matter of Broadcast Localism (MB Docket No. 04-233)

Dear Chairman Martin:

I am writing you today regarding the recent news that the Federal Communications Commission is considering a radical re-regulation of our nation's broadcast system in the pending localism proceeding. I understand that the Commission intends to reverse decades of deregulatory progress by imposing a series of new and burdensome regulations on broadcasters; and, I ask you to reconsider these actions.

Clear Channel Radio New York reaches nearly seven million listeners throughout the Tri-State area on WLTW-FM 'Lite FM', WKTU-FM 'The Beat of New York', WHTZ-FM 'Z100, New York's Hit Music Station', WAXQ-FM 'Q104.3, New York's Classic Rock Station', WWPR-FM 'Power 105.1' New York's Hip Hop and R&B', and WALK-AM/FM 'Long Island's Best Variety.' Each of our stations plays an active role in the community and CCNYC has had, for sometime now, a Local Advisory Board which meets quarterly to assure that we remain current on the needs of our local communities.

In 2007 alone, we helped dozens of local charities including Musicians on Call, March of Dimes, LIFEBeat, Autism Speaks, Safe Horizons and many more. Clear Channel New York supported events and initiatives important to these and other local organizations by airing well over \$2 million in airtime for Public Service Announcements, public affairs programs, promotions and on-line support.

Further, we are currently mentoring disconnected youth, working with the New York City Office of the Department of Youth and Community Development through their Young Adult Internship Program. We hosted seven interns this past fall and will welcome the next group of interns at the end of March.

As broadcasters we recognize the important role we play in our community and we strive every day to build upon the foundation we have built over many years. I urge the Commission not to impose any rules that will create unnecessary burdens and impinge on our ability to continue providing valuable community service.

Sincerely,

Robert Williams

Re: In the Matter of Broadcast Localism (MB Docket No. 04-233)

Dear Chairman Martin,

I am writing in support of Clear Channel Radio New York and to advise of their active involvement and support of the March of Dimes Foundation. For the past eight years, Z100, WLTW, Power 105.1, Q104.3, WKTU, and WALK have been strong partners and provided exemplary promotional support to several initiatives that aim to raise awareness and educate the public about the causes and prevention of premature birth, birth defects and infant mortality.

During 2007, all six stations provided valuable airtime to promote a March of Dimes Prematurity Awareness Campaign for the month of November, as well as for our largest annual fundraiser WalkAmerica® during the months of March and April. In addition to PSA placements, the stations provided public affairs programming opportunities, produced targeted messaging for our school teams, and assigned on-air talent to host several pre-event kickoffs as well as the “day of “ program. They generously provided music vans at several checkpoints along the walk route and hosted a finish line celebration. All six stations contributed significantly to the overall success of the events in Manhattan, Long Island and Staten Island.

Clear Channel Radio New York has been instrumental in providing the listening public with information and messaging that helps improve the health of babies and mothers everywhere. I strongly urge that your commission support their ability to continue this important service to the public. Thank you for your consideration.

Very truly,

Ruby Wint
Communications Director
New York Division

In the Matter of Broadcast Localism (MB Docket No. 04-233)

Dear Chairman Martin,

I am writing to you to let you know of the vast support and commitment that Clear Channel Radio in Milwaukee, WISN-AM, WKKV-FM, WMIL-FM, WOKY-AM, WRIT-FM and WQBW-FM, lends to our local community. Our six station cluster goes above and beyond any rules mandated by the FCC in supporting our community.

Most recently, Clear Channel Radio has been supporting Aurora Sinai Medical Center in their "Project Nikki" campaign – a campaign to raise \$400,000 for the Neonatal Intensive Care Unit (NICU) to buy much needed Giraffe OmniBeds. The goal is to make sure that every high-risk newborn baby delivered not only *survives* but also *thrives*. Clear Channel Radio's commitment to running a large number of PSA's to help raise contributions to purchase beds, while increasing the community understanding about Sinai's NICU, is only a start as to our support to this campaign.

Clear Channel Radio Milwaukee has also been a supporter of the Milwaukee Police Department's WeTip Campaign, launched in 2005. Since its inception in the community, our six station cluster has run thousands of PSA's in support of this program. The WeTip hotline is a campaign that helps citizens take back the streets in our community by reporting crimes without fear. All the citizens need to do is call the 1-800 WeTip hotline number to place a completely anonymous crime tip. It is a reward based hotline.

Other community organizations we support with PSA's, remote broadcasts, appearances and online inventory include The Hunger Task Force, Second Harvest, MADD, Aids Resource Center, Children's Hospital of Wisconsin, and so many more.

Clear Channel Milwaukee is continuously growing their community support. I urge the FCC not to impose any rules that will hamper our ability to perform this very valuable community service.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. McDowell'.

In the Matter of Broadcast Localism (MB Docket No. 04-233)

Dear Chairman Martin,

It is truly my honor to write to you today about the tremendous commitment that Clear Channel has made over the years to public service and to providing outstanding media support to good causes in North Texas.

As the Public Affairs Director for Southwest Transplant Alliance since 1995, it has been nothing short of a joy to work with Anna de Haro and the Clear Channel team. Clear Channel has worked to develop contacts in a wide variety of fields, and they were smart to place Ms. deHaro in a role that took advantage of outstanding interview skills that put her guests at ease.

Clear Channel has been a consistent supporter of causes that matter to the community, not only in the remarkably professional way that they have produced their public affairs shows, but also in the caring way in which they have personally involved themselves with so many community groups and causes.

Several Clear Channel employees have even come out to represent the company by playing on the media softball team at our annual Texas Rangers Donor Awareness Game, which shows that this is one team that is not afraid to get its hands dirty while supporting causes that have become important to its audience.

Southwest Transplant Alliance values its partnership with Clear Channel's public affairs department and very much appreciates the work that the company has put into making its public service programs so much a part of the community it serves.

We hope to have a long and mutually supportive relationship with Clear Channel that will continue to benefit the North Texas community, in our case, those in need of life-saving transplants. Organ donation has increased dramatically over the years, and I have to believe that the dedication of Clear Channel's public affairs team has to be at least one of the reasons for this the tremendous success of donation in our community.

Sincerely,

Pam Silvestri
Public Affairs Director
